NEIU Admin Proposes 0% Raise for Next 5 Years, Elimination of Excellence Awards

In the bargaining session on Tuesday, November 29, the NEIU Administration finally provided the proposal on compensation that we have been waiting on for months. Among other things, they proposed a **0% pay increase across the board for the duration of the contract, the elimination of faculty excellence awards, and the elimination of the faculty-governed Program Elimination Committee**, whose charge is to provide input on any proposed elimination of academic programs.

NEIU president Gloria Gibson and her administration have given up on the faculty, staff and students of our university. They have led us into our current enrollment crisis and are resigned to failing. This has been made clear by their proposal of a **25% work increase with a 0% increase in compensation.**

Unlike Gloria Gibson and her administration, the members of NEIUPI know what this university means to our students and community. But we can only save our school if we work together! Join us in the fight for the soul of NEIU!

Teach-In and Pizza Tomorrow!

Support the NEIUPI Teach-In/Pizza Party on Thursday December 1, from 2:30-4 in Village Square. We need our students to be informed about collective bargaining and about how our concerns intersect with theirs.

- [Sign up to participate!](#) We need help with everything, and you don't need to be present the whole time.
- Post the attached flyer to your D2L page, email it to your students, print it out and distribute it widely!
- Announce the teach-in to your students, bring your class, or offer them extra credit or civic engagement credit for attending!

NEIUPI is working for a fair contract and an inclusive university!
